Profy, IV-Solicitor, Sarah Brucie-Assistant Solicitor, Jay Ferraro-Borough Manager and Barbara Ferraro-Secretary/Treasurer.

PERSON ABSENT - none

2. The Pledge of Allegiance was led by Mayor Byrne.

Ms. Seader stated that the meeting was being recorded and introduced the Council members, mayor and solicitors. Ms. Seader reminded people of the professional nature of the Zoom meeting and that conduct should reflect this, all would be muted, there would be time for resident comments during which the raised hand feature should be used and the chat feature should not be used.

3. APPROVAL OF MINUTES - Ms. Seader asked if there were any questions, concerns, corrections or comments on the February 2, 2021 meeting minutes. A motion was made by Ms. Oessenich to accept the February 2, 2021 minutes. Mr. McBeth seconded. There were no objections. The motion carried.

4. RECOGNITION FOR MARYANN BARNES – Ms. Seader acknowledged and introduced Bill, Patti Jo and Michael Barnes and his family, the family of Maryann Barnes. Ms. Seader read the recognition that Council created to honor Ms. Barnes and her nearly 40 years of service to Langhorne Manor Borough. Council also presented a \$100 donation to the Barkann Foundation in her memory. Ms. Seader stated that the Borough Hall meeting room was being named the Barnes Meeting Room and that there would be a plaque commemorating this. Ms. Seader retired the gavel and presented it to the family. The family expressed their thanks and stated that there was nothing other than family that meant more to Ms. Barnes than Langhorne Manor Borough.

5. INTRODUCTION OF REMINGTON VERNICK ENGINEERS - Ms. Seader introduced Isaac Kessler from Remington Vernick Engineers (RVE), the proposed engineers for the MS4 project. Ms. Seader went through the scope of work and phases. She stated that the cost of the proposal was \$21,250 which is a Not-To-Exceed amount and will not be adjusted without prior approval of Council for the additional costs associated with a specific change in the scope of work. Mr. Kessler stated that the scope of work mimics the required phases of what is required by the Department of Environmental Protection (DEP). He stated that their team works closely with the DEP which is constantly evolving their requirements. He stated they are looking forward helping the Borough achieve its ambitious, but realistic goals to stay on track going into the next permit. Ms. Seader asked for questions from Council. Ms. Gasparovic asked about the dollar amounts of the proposal if they were maximum or minimum amounts and if they could change. Mr. Kessler responded that RVE does make their proposed costs on the conservative side as things do come up. He stated that they are Not-To-Exceed numbers and RVE strives to be as efficient and productive as possible to come in below those

numbers whenever they can. Mr. Pizzola asked about what year the amounts are for. Mr. Kessler stated that they are for the MS4 program year 2021. Mr. Ferraro stated that if the Borough embarks onto a specific project, the cost for that project would be under a separate work order and is not included under the current proposal. Mr. Ferraro stated that the cost does not include any intermunicipal agreements or is inclusive of any engineering that may be done for a project within the Borough. This was kept separate to be able to identify costs and when the Borough may be able to get grants. The proposal is for the MS4 program only and not for any projects that may assist the Borough in getting DEP credits. Mr. Kessler stated that the permit is until 2024 so when projects are identified that can meet the goals of the permit cycle, RVE would then work closely with Mr. Ferraro, the Stormwater Commission and staff to look at where it fits in the Borough's budget and at any grant opportunities. Mr. McBeth asked that if the DEP makes changes which require a change order to the scope of work that is in the proposal, is it still a Not-To-Exceed number. Mr. Kessler responded that the permit is in effect until 2024 so there would be no changes during that permit cycle. Changes would come with the next permit cycle and RVE would work closely with the Borough and staff to prepare for any changes in 2024. Ms. Seader asked for questions from residents. Margie Gillies, 303 W. Prospect Avenue-asked if the proposal was just for the study of the stormwater issues that are required by the DEP or is this work that is going to be done. Mr. Kessler responded that it is for the work that goes into all the requirements that are required by the DEP for the permit. Ms. Seader asked for a motion to accept the proposal from RVE and allow the borough manager to execute a contract for Langhorne Manor Borough. Ms. Gasparovic made the motion as stated. Ms. Oessenich seconded. There were no objections. The motion carried. Ms. Seader thanked Mr. Kessler who stated he was looking forward to working with everyone.
