

IF you plan to attend the September 9, 2025 Council Meeting, here are some suggestions for you to consider if you have questions:

- Write your question or questions in advance of the meeting and drop them off at the borough office. If the office is not open when you arrive, put your question through the mail slot in the front door by Monday evening September 8. This will give us time to research any question that you may have, especially if it is one that we have not heard before.
- A representative from Keystone Collections Group, Jason Lawson, will be in attendance to further provide further clarification on any questions that you have.
- All written questions will be reviewed with residents at the meeting before Council Members vote on the motion to pass or reject the EIT.
